

never authorized this agreement in the terms in which it was made, and asserts that Dr. Salvador De Mendonça, Brazilian minister at Washington, received positive instructions to make no treaty that did not expressly bind the United States government to refrain from making a similar agreement with any European monarchy. The cabinet to which Dr. Ruy Barbosa belonged resigned on January 20, 1891, and on February 5th, the new cabinet promulgated the reciprocity agreement which did not contain the stipulation that had been considered absolutely essential. Dr. Ruy Barbosa maintains that under these circumstances the agreement lacks moral validity and that the Brazilian government has ample grounds for reviewing the question.

MAY DAY IN BELGIUM.

Very Little Trouble Looked For—Monster Demonstrations in Preparation.

BRUSSELS, April 25.—According to present indications the first of May demonstration in Mons will pass off as quietly as in previous years. About 5,000 workmen headed by the labor leaders will march through the streets of Mons and most probably hold a meeting either at the Bourse or market place.

The first of May demonstration in Seraing is but little discussed among the workmen of the important center. The Liege labor party, however, has placarded red posters calling upon the men of Seraing to come to Liege on May 1. The authorities have not yet decided whether to prohibit any demonstration or not.

The central workmen's federation, at a recent meeting at the Maison Du Peuple in La Louviere, decided upon organizing a monster demonstration for May first in favor of universal suffrage and an eight-hour day. All the workmen and miners of the district will be asked to attend, and it is expected that from 10,000 to 15,000 will respond to the call.

THE QUEEN'S VISIT

To France Brought to a Close—Greeted Cordially by the People.

HYERES, FRANCE, April 25.—Queen Victoria's visit to Costebello has been brought to a close. To-day, accompanied by the Prince and Princess of Battenburg, her majesty started for Darmstadt, where she will visit the ducal family. It is said she will meet at Darmstadt her daughter, Empress Frederick, and, perhaps, Emperor William. An enormous crowd assembled at the railway station to witness the departure of the royal party. The prefect and mayor presented bouquets to the queen and other members of the party. A band was present and played the British anthem, and a royal salute of 110 guns was fired by a battery.

The mayor made a short address, in the course of which he wished the queen a prosperous journey. The queen in reply said that she was very sorry to leave. Her majesty remained standing at a window of her carriage as the train departed.

Yellow Fever in Brazil.

RIO JANEIRO, April 25.—The mortality caused by yellow fever, the growth of which had been checked by heavy rains, is again increasing, as is usually the case when yellow fever prevails here. There are at the same time many deaths from other fevers. On the 16th, sixty-eight deaths from yellow fever were officially reported.

Some of the small towns have been almost entirely abandoned by their inhabitants. Recently heavy rains have flooded the cities of Soa Paulo and Santos, and caused considerable damage and some loss of life, especially in the latter city, in which thirty persons are said to have perished and the damage to property is estimated at from \$1,000,000 to \$1,500,000.

There are indications of exciting political events in Rio Grand do Sul. In that state there has been a rupture between the partisans of Silveira Martins and those of Demetrio Ribeco, who control the state government. In the city of Pelotas there was rioting on the 12th between civilians and soldiers. A civilian had been struck by a soldier, and his friends to avenge the injury attacked some of the soldiers, killing one and wounding three.

British Grain Trade.

LONDON, April 25.—Mark Lane Express in its weekly review of the British grain trade says: English wheats are dull; prices have declined 1/4d during the past fortnight. Foreign wheats are steady. The stocks now held at fifteen great ports amount to 2,951,000 quarters. The outlook for the holders of these stocks is serious, as little buying is looked for until the middle of May. English flour is dull at 20s; corn firmer; barley, oats and beans are cheaper.

Tom Is Right, For Once.

LONDON, April 25.—Col. Thomas Ochiltree, who has been suffering from an attack of gout for some time past, is still confined to his room. Speaking to-day in regard to the recent duel between Messrs. Fox and Burrows in Belgium, Colonel Ochiltree said that he had "nothing but feeling of contempt for the whole duel business, which was a great farce."

In Free Trade England.

LONDON, April 25.—The Durham coal owners have issued a statement that owing to depression in the coal trade and the expense of repairing the pits, none of their mines will be reopened except on the condition of a 10 per cent reduction in wages to continue during the next three months.

Archbishop Ireland's Success.

ROME, April 25.—The editor of *Moniteur de Rome* is authority for the statement that the mission to Rome of Archbishop Ireland, of St. Paul, Minn., has been a complete success. All the questions upon which his mission had a bearing have been decided in his favor.

AMERICAN THEOSOPHISTS.

Why Mahatmas are Only Found in the Himalayas.

CHICAGO, April 25.—About 100 members of the American section of the Theosophical Society were present at to-day's session of the annual convention. The general secretary was instructed to devise means consolidating the work of the oriental departments, and the services of Prof. Drivedi were dispensed with. It was decided to request every member of the organization to contribute \$10 toward a fund for Colonel Olcott, the retiring president.

Secretary Judge explained why Mahatmas were usually found in the Himalayas. There is no inaccessible place in America where Mahatmas might exist. Every newspaper man in the United States would find them out and interview them and choke out of them the secrets they have. Do you think Mahatmas could live in Chicago or New York? No; they would be asked to advertise. There is no reverence in the American people. Mahat-

mas could not exist here. That is why they are found in the utmost fastnesses of the Himalayas.

The remainder of the day and evening was occupied in the reading and discussion of papers on theosophical subjects.

For Auditor.

To the Editor of the Intelligence.

SIR:—I see by your valuable paper names suggested for the various offices in the state. The Republicans of Calhoun county would present the name of J. J. McLaughlin, of Summers county, W. Va., for the office of auditor of this state, as the man that could poll more votes in the coming election than any other man whom I know. McLaughlin is an Irishman and well qualified to fill any position tendered him by the party. I notice several leading papers of the state suggesting that Mr. McLaughlin be nominated for the office of auditor. He is well acquainted in almost all of the counties of the state, and if nominated will be elected. His name would add strength to the ticket.

YOUNG REPUBLICANS.

Grantville, W. Va., April 20.

Mr. Willey a Candidate.

To the Editor of the Intelligence.

SIR:—In selecting a candidate for Auditor of West Virginia the Republican State convention should consider the fitness, worth and popularity of the various men presented, above all other things. Among those who have been mentioned for the position, none are better qualified or more deserving than Mr. S. W. Willey, of Hinton, Summers county. Mr. Willey is not only a thorough Republican, and hard party worker, but is in every other way deserving of the honor. He has a wide acquaintance throughout the state, is popular everywhere, and is eminently fitted to fill the office satisfactorily. If nominated and elected he would serve the people with credit to himself and reflect honor on the Republican party.

Tells of His Fearful Sufferings After Gastric Fever and His Cure by

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took peppin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like poison meeting I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla." W. D. WENTZ, 181 Castle St., Geneva, N. Y.
